We are a member of We are a small group of volunteer animal lovers whose mission is to rescue, provide sanctuary, and ultimately to re-home abandoned, stray and neglected dogs. Whenever possible, we also assist animals who, because of extenuating circumstances, are unable to remain in their homes with their owners. All our animals are housed in foster homes where they are provided with an enormous amount of love and any medical attention that may be required to ensure that they are in good health before adoption. They are all microchipped, heart-wormed tested, neutered and brought up-to-date with vaccinations before being placed in their new homes. Failing the availability of foster carers, the dogs, unfortunately need to be placed in boarding kennels which places a huge burden on our finances. When time permits, our dogs are also house-trained and taught basic obedience. All animals are evaluated for temperament and personality. This helps us to place them in homes that are well suited to their needs and to the needs of their future owners. If you are looking for a specific type of dog and do not see it on our website, please email us or look at Links for other organisations. We work closely with other rescue groups and animal shelters and may be able to assist you in finding your next furry friend. Please support our generous contributors
